A WORD FROM THE PRESIDENT

Thank you to everyone who has chosen to support Adelaide Pets Alive! in our first six months.

Adelaide Pets Alive! primary role is to rehome homeless pets. Our secondary role is supporting patients and their pets in our Crisis Care Program.

In this report we are proud to share what we have accomplished in such a short time.

During our first six months we have been overwhelmed with the support of the Adelaide community.

We are honoured to be sponsored by @Lenswood Pick Your Own Apples who

sponsored our first animal as well as offering ongoing sponsorship.

We have been honoured to meet and serve homeless pets in Adelaide and to support them in foster care. There have been many heartfelt moments when we see a homeless pet find their forever home.

We hope that you will continue to stick by us and help us save more lives.

thank you

CRISIS CARE PROGRAM

A program that supports patients and their pets.

Sometimes patients are admitted to hospital and do not have family or friends to care for their pet. Most times the pet is the patients significant other.

Our Crisis Care Program places their pet into foster care where the pet receives love and reassurance during this difficult time.

Our Crisis Car Program can improve patient outcomes by alleviating the patients anxiety, improving compliance in care and treatment and less potential for discharge against medical advice.

This program is of no cost to the patient, prevents shelter surrender and promotes the human-animal bond.

Adelaide Pets Alive! have secured a formal agreement with CALHN (Central Adelaide Local Health Network) to operate the Crisis Care Program. This is a huge achievement for us as we have only been operating since March!

Adelaide Pets Alive are offering a service to care for pets when their owners are hospitalised with no-one immediately able to assist. ❤️

"We wouldn't want people to be discharging themselves against advice. We want them to be assured that their pets are being looked after," Board Member, Andrew Baum told ABC Radio Adelaide's Nikolai Beilharz.
